THE telegraphic project which Mr. Cæsar-CELSO-Moreno has come to China to try and a very good attempt was made to carry out the push forward is, we fear, somewhat too advanced a scheme for the Chinese Government to undertake. Mr. Moreno is the agent for tomo gentlemenin America who are auxious to lay a submirine cable to connect the the uniority of the andience. Altogether the performance was a very successful one, and we eastern coast of China with San Francisco. were only sorry there was not a fuller house to taking in Japan en route. The scheme is a good one and calculated to promote the progress of the Cdestial Empire, but it would require considerable, capital and a duplicate able. The Tientsin correspondent of our Shanghai morning contemporary states that the Japanese Government has promised to render assistance to the project conditionally on its receiving support at Peking. Mr. Moreno's difficulties will, we imagine, be- closing part of the race at a quarter past two gin when he arrives in that capital: He will be some time obtaining any answer at all. and when he gots one the chances are that it will be unfavourable. As a matter of fact. spart from Chinese anathy to improvement vessels entered for the matchand inherent conservatism, the Imperial exchequer is at the present moment in a very low condition. There have latterly been so many sources of expenditure that the Government has become seriously embarrassed for funds. The war in Kashgaria has been one great drain upon its resources, the late famine in the northern provinces another, and now fresh troubles are facing it. The in Kwang-si will not be suppressed without great outly, and the disastrous floods in Shantung, Shansi, and Honan, caused by the overflow of the Yellow River, will call for fresh grants in aid of the | jacent." Fortunately there was no fouling, and homeless and distitute people of those provinces. The difficulty with Russia, too, is an and scaked out to windward like a forty-tonner other contingency which the Authorities at going as "stiff as a church" under her topsail Peking have tomeet. This cannot be settled Wave also was doing well, and the little boat without great expense. If an appeal to arms | Naiad with two jibs on bowsprit and housed assisted by an English alliance, there would other two. Aziel with topsail aloft was travelling Mr. G. H. Altogether it is pretty clear that Mr. Mouno has not arrived in China at an auspicious time for the success of his mission, so faras China is concerned. The Chinese Government, whatever its disposition may be, really cannot afford to give pecuniary or expense in fitting her out, but whilst sympaassistance to such a scheme. It is possible, thising with him most heartily, we hope he may however, that His Excellency the Grand Secretary Lr Hung chang will be the more ready to offer his moral support to the scheme. That will cost nothing and commit the country to acthing Moreover there is man of war analorage, but Neomi got ber topreason to believe that Li is personally must on end and set her jib header, and she soon anxious to promote the use of the telegraphic wire. It washe who constructed the first telegraph linein China, and though it is only a few miles long, and is simply intended for his immediate and personal me, its adoption by him at all is a proof that he has none of the fanatical prejudices entertained by most of

improvements. But the great Vicercy can, of the leading boat, and let Wave up not, we think, large as his powers undoubtedly are commit the Government to an active participation in this undertaking to connect China with the Western States of America The second best to the Rocks was very quickly by wire. If the work is to be done soon it got over. Nami reeling it off in fine style, Wave will have to be carried out mainly by Ameri. sticking close to Naied, but gradually falling can capital, and that will only be subscribed on the investment being shown to be a sound one. On that head we scarcely like to advance an opinion. The line would no doubt pay eventually, but for some years it would think, a vain expectation.

Sir Julius Benedict's opera "The Lily of Kil-The composer has caught the truespirit of Irish song, humour, and pathos in the piece, and on Saturday the company, with the resources at their command, placed it on the stage in a manner which reflects great credit on the manager and the actors individually. Miss Clara Stanley, as Eily, acted with spirit and sang with taste and feeling, and altogother gave a good representation of the character of the Irish peasant-girl. Mr. Vernon, who received a hearty reception after his late indisposition, although apparently still suffering somewhat at the commencement of the performance improved in voice as the piece progressed and gave an excellent representation had thrown on his shoulders the part of Father Tom, owing to the running away of Mr. Paddon, who had taken the part in former acts. This individual's appearance on the stage has generally been the cause of some amusement, and Satur day was no exception to the rule, but no one could ever have expected that a man would be guilty of such a ridiculous and childish piece of folly as to throw up his part in the middle of a performance. It was fortunate, however, rather

than otherwise that he did so, as the audience were thereby treated to a genuine little piece of acting when Mr. Vernon made his appearance as the priest. Mr. Phillips, as Dannyman, played his part very creditably; during the interval At the Hongkong Hotel, the wife of Mr. H. The part of Mr. Corrigen, the hard middle-man found a good exponent in Mr. Mackinnon, Miss B. Draegar appeared to advantage as Shelah, and an Irish jig danced by her and Mr. Rollings was loudly applauded. Miss B. Draegar also took the part of Anne Chule and Miss A. Draggar that of Mrs. Cregan. The celebrated The Victor Emanuel (white) soon passed in its entirety, with all its startling effects, and promise, but with the scant appliances at the City Hall it was hardly to be expected that the scene would be very realistic; and although some parts of it could not fail to produce a laugh-the stealthy withdrawal of the boat for instancestill the affair went off sufficiently well to please

There were six entries for the match, and the boats were stationed in the following order, commencing nearest the mainland—

Spartan Victor Emanuel (Black and White)...

At half-past ten o'clock Mr. Beart started the boats by the blow of a steam launch whistle, and of Hardress Cregan. In the fourth act he also the Coeran and Victor Emanuel (white) were smartly got underweigh, followed by the Victor Emanuel (black and white), Spartan, Fleetwing, and China. The Coeran and Victor Emanuel kept well into the Hongkong shore and had a fair run down to Green Island. The Victor Emanuel on the way down set a spinnaker, and the Spartan set a spinnaker and topsail, whilst the Victor Emanuel (black and white), and Coeran only had two China sails, the latter's foresail being rather small. Off the Sinnese anchorage Coeran was first boat by about twenty yards and leading up in the rear were Victor Emanuel (black and white), Victor Emanuel (white), Spartan, Flootwing, and China. Off MacDoneld's slip the Viotor Emanuel (black and white) pulled up and got on equal terms with the Coeran, and when 800 yards from Green Island Victor, Emanuel (white) hauled to the wind and went on the outside of the Island, whilst the Coeran, who was leading well, very foolishly went through the Sulphur Channel and in consequence lost a lot of ground. All the other boats kept outside of Green Island, and rounded the first

mark-boat in the following order-Victor Emanuel (black and white) 11 20 .20 Fleetwing 11 22 10 Sparton 11 22 40 Goeran 11 23 05 China: 11 24 40

rival boat from the same ship and made a run down to the next mark, whilst the Coeran overhauled and passed the Spartan and Fleetwing. On rounding the second mark-boat there was only the boat's length difference between the Victor Emanuel (black and white) and Coeras, the latter passing third, but on the weather side: the other boats with the exception of the Spartan were a long way in the rear. The Coeran kept well to the wind and made a long tack to the rocks on to make three tacks to reach the village of Chaung Tmi Wa: The Spartan, however, kept remarkably well to the windward, and succeeded in making the latter village in one tack from the Spartan, both of them leaving the Coeran vacant. for a short time becalmed through getting too

CAPITAL (Fully Paid-up)	Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously lattained and dispensing with those wast marginal and vacant spaces which have heretofore characterized Chinese publications. For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to nonmunicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very lew indeed of them are perfectly acquainted. To parties resident in England and interested in China it cannot but be invaluable occasionally. To illustrate the vast scope of the work, the following facts are submitted for consideration—Chalmers' Vocabulary contains about 16,006 Chinese characters, and Medhurat's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English	THE Undersigned have been appointed S Agents for the Sale of their Goods Hongkong and China by Messrs, J. & R. General Post Office, Hongkong, 9th July, 1878. SIR.—An impression seems to have got abroad amongst the Mercantile Community here that correspondence from China for London when forwarded by French Packet will reach its destina-

tion more quickly, if directed via Naples than if sont vià Marseilles. I have pointed out to the senders (who have been induced to redirect their letters for the Margeilles route) that this idea is most probably. mistaken. As, however, the French Post Office Agent whom I consulted could not speak positively on the point, I have the honour to request information as to whether I am correct in supposing that no time would be gained by sending correspondence or closed mails for London to Naples instead of to Marseilles.—I have, &c.,

4th Sontember. SIE,—In mply to your letter of the 9th July last, No. 478, I beg leave to inform you that advantage would certainly be gained by sending via Naples, instead of via Marsoilles, the mails for England which you office make up for conveyance by French Packet. In the ordinary course, those mails, if landed at Naples, should reach London twelve hours sooner than if carried on by the Packet to Mar-Beilles. Such being the case, I have to suggest that the mails in question should be addressed

Under instructions from the London Post Office, the mails for the United Kingdom which have hitherto been forwarded via Marseilles, will henceforth be forwarded via Naples, as it is understood that a gain of twelve hours results from the adoption of this route. As it would be extremely inconvenient to divide the mail and no practical advantage would result from doing so, all correspondence intended for the United Kingdom by French Packet will be sent via Naples, even though marked via Mar-
